Atmospheric or  
Negative Pressure  
Air Flow (disc) Dampers  
with 240v Electric Actuators

## Product: Air Flow Controller Series ( Disc Damper ) Electric

Ceiling space becomes more congested with the number of devices and services requiring presence particularly in small areas such as those in aged care facilities.  
The architect / designer has the choice to either attempt a recessive presence or make a feature of the facility. Condor have various ceiling mounts for different purposes whilst maintaining aesthetic regard.

Can be used with or without fan

Construction: steel  
Finish: resin coated (white)
